What's my long term goal?

My long term goal is to develop a comprehensive set of new skills so that I can land my dream job and also help others excel in there learning career by teaching them what I've learnt.

What's my learning rhythm?

I would like to advance a few hours weekly let's say 3hrs daily because I'm still a student and I have to read for my studies and go for lectures and other school activities.

How will I handle frustrating moments?

It depends on how frustrated I am and what got me frustrated, say I'm trying to finish an assignment or project and I got stocked on the way I close my system and leave for a little while sometimes I sleep sometimes I meet my friends and we talk and have a bit of fun or engage myself into an activity so that my mind will be off that for a while then I try to come up with another solution for that project or assignment.
